**Project:** Oil Boiler or Radiator Heating System - Repair  
"Your service was very timely, especially since it was a long distances transaction. It was easy working with you by phone as I've had some really bad business deals that way. Thank you very much and I would refer your services to my family and friends. Juanita W"

**Project:** Central Air Cleaner - Repair or Service  
"I have a Honeywell electric air cleaner that stopped working. Another service, not one recommended by Service Magic, said that it had to be replaced because, when the electronics go in these units, it would cost nearly as much to fix. He never trouble-shooted the system. The guy from R&R troubled-shooted it and discovered that one of the two cells had a short in it, and that all I needed was to replace this cell. The electronic was fine. This saved me the expense of replacing the whole unit. He was friendly and courteous, and I felt that he wanted to do what was best for me."

**Project:** Central A/C - Service or Repair  
"Very timely response. Was able to fix my problem without another visit. I signed up for their maintenance service and am very happy with their work. Missed out on 5 stars because they made a bit of a mess moving things around in the garden and I had to replace things, not because of any problems with their work."
